BALDRIDGE HEAT SEEKER

The sire of the embryos selling as Lot X.

One of the most exciting embryo flushes at Boyd Beef Cattle in 2023 is this blending of the widely popular Baldridge Heat Seeker with the impressive BBC donor, Vintage Blackcap 1048.

Vintage Blackcap 1048 posted an impressive weaning ratio of 109 along with a yearling ratio of 105 and offers an impeccable EPD profile - Highlighted with several traits in the top 10% of the breed.

The maternal grandam of these embryos is a maternal sister to the \$175,000 top selling female of a past EXAR sale to Deer Valley Farm and Edisto Pines, plus she is a maternal sister to the \$90,000 EZAR Gold Rush 6001 who sold to ABS, EXAR, Basin Angus and Turner Meadows.

This package of embryos will be some of the first to sell by the extremely popular ST Genetics sire, Baldridge Heat Seeker, who offers exceptional EPD's for a multitude of traits!
